

What Should I Be Reading?

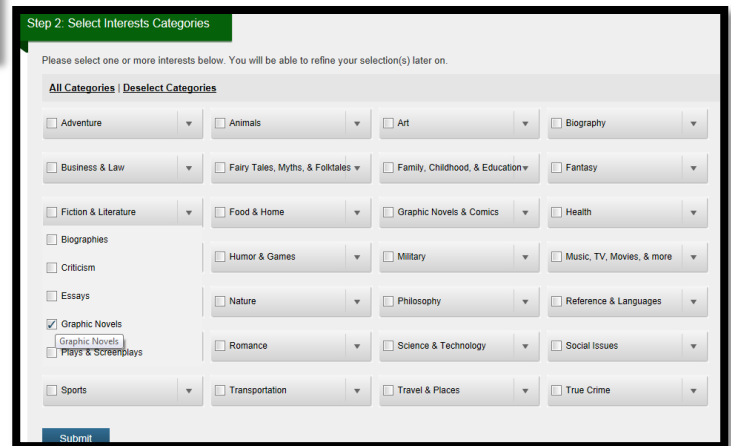

Navigate to the website <http://www.lexile.com>

Hover over the "Lexile Tools" tab and select "Find a Book"

If you know your Lexile measurement score (ask your teacher or guidance counselor), enter your score in the Lexile score box. If you DO NOT know your Lexile score, you may select your grade in the dropdown box to the right. Click Submit.

Use the next page to select genres of interest to you or your child. Check as many areas as you wish to. The genre categories have sub-categories that are accessed by clicking the downward arrow to the right of the genre name. Click Submit to receive search results.

Search results can be refined by the information to the right of the search results (age range, lexile range, keywords, book types, page count, etc.).
